THE PROGRESSIVE NEW YORK STATE AGENDA

We The People of New York have elected a true blue state government. For the first time since 2010, Democrats now control the Assembly, Senate and Governorship. In 2019 we have the potential to pass progressive legislation that has been stuck in limbo due to a Republican-controlled Senate. New York has the power to strengthen women's reproductive rights, establish a universal health care system, reform voting rights, fix our broken criminal justice system and pass immigration rights. 2019 is a year for progressive empowerment to grow our communities. Please take the time to understand the issues progressive groups are mobilizing for and help advocate for a New York we can be proud of.
