
We Oppose Building An Expensive Aquarium with Taxpayer Money!

*We have significant issues to address before considering an aquarium.
Including but not limited to addressing poverty, increasing mental health
services, building affordable housing, building better infrastructure like sewer,
water, broadband, sidewalks, roads, etc., investing in public transportation,
investing in education and more.*

*There are too many unanswered questions about this project. There should
be no rush to build an expensive aquarium that the taxpayers will then have to
pay to maintain for years to come.*

*Providing human services is the responsibility of Onondaga County.
Spend \$85 million on People, not fish.*
